************ This Home-Made Cough Syrup Will Surprise You

Stops Even Whooping Cough Quickly, A Family Supply at Small Cost.

ŏoooooooooooooooooŏ

Here is a home-made remedy that takes hold of a cough instantly and will usually cure the most stubborn case in 24 hours. This recipe makes a pint—enough for a whole family. You couldn't buy as much or as good ready made cough syrup for \$2.50.

Mix one pint of granulated sugar with ½ pint of warm water, and stir 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. This keeps perfectly and has a pleasant taste—children like it. Braces up the appertite and is slightly laxalive, which helps end a cough.

You probably know the medical value of pine in treating asthma, bronchitig and other throat troubles, sore lungs, etc. There is nothing better. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in guiaicol and all the natural healing pine elements. Other preparations will not work in this formula.

The prompt results from this inexpensive remedy have made friends for it in thousands of homes in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

Life Insurance Companies

They Are Closely Observing Public Health Conditions.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that the reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of applicants do not even suspect that they have the disease.

He states that judging from his own experience and reports from druggists who are constantly in direct touch with the public, there is one preparation that has probably been more successful in relieving and curing these diseases than any remedy known. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of cures.

We find that Swamp-Root is strictly an herbal compound and we would advise our readest who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes fifty cents and one dollar,

However, if you wish first to test its wonderful merits, send to Dr. Kilmer & Co., Binghampton, N. Y., for a sample bottle, absolutely free. When writing be sure and mention the Richmond Daily

President Taft from the outset has been aggressive in the detense of Sectretary Ballinger, and his faith in and support of his Cabinet minister have never wavered. It is doubtful whether on any subject connected with his administration he has been more emphatically immovable. The attitude of his mind on the subject is clearly shown in the letter which he wrote to-day to Mr. Ballinger, accepting his resignation. He is unsparing in his denunciation of both the methods and the motives of those who have sought to bring about the downfall, of Secretary Bailinger. Bailinger.

Pleasing to Pinchot Friends.

At the offices of the National Conservation Association much gratification was expressed at the selection of Mr. Fisher. President Gifford Pinchot, it was explained, is now en route to New York, from Akron, O. He will doubtless spend a day or so as the guest of his brother, Amos Pinchot, and he has planned then to take a steamer for Europe.

Associate Forester Overton

The former chief forester intends to the country to the sented by public servants in whose hands the public interests are safe.

"The appointment of Walter Fisher is admirable. In his new post as Secretary of the interior, he will, I feel sure, continue the conservation of our natural resources as closely as we have done in the past. His entrance into the government service will unquestionably meet with strong public approval.

The former chief forester intends to

lant over the appointment. "It is sim-ply fine," he said, "and it makes us around here feel mighty good," Mr. Fisher recently appeared before the Interstate Commerce Commission as attorney for the Western Boot and Shoe Dealers' Association in the rate cases. He sat at the side of Louis D. Brandeis and many times during the litaring he was pitted against the most brilliant railroad counsel in the country, with the result that he invariably came out with flying colors in the arguments on various points of the law livelyed.

"Now Merry War Begins."

New York, March 7.—The first intimation the new Secretary of the Interior had that his appointment had been made public came to him this afternoon, when he bought a newspaper, He left Washington this afternoon.

"Now the merry war begins, I sup-oese," he said, when the reporters ound him.

Then, after four preliminary drafts, Mr. Fisher gave out the following written statement, which is the only quotation he would allow: "I have no statement to make ex-cept that I have accepted this position with a neep appreciation of its obli-gation and of its opportunities to ac-complish practical and constructive work."

work."

Wednesday night or Thursday morning Mr. Fisher plans to go to Washington, where he will remain long enough to perfect his plans for taking office, and then continue to Chicago to wind up his personal affairs. He wished it understood that his appointment grew out of no technical acquaintance with forestry, but rather from his long service as counsel in civic matters involving adjustment between warring private and public interests.

Mr. Fisher is still a member of the committee appointed by the President to report on Federal regulation of railroad securities, now in session in this city. His friends expect to see him retain his committee membership, which pays no salary, along with his new duties.

"Ballinger's resignation was inevitable," he said, "and will be received with general satisfaction. It is a welcome concession to the growing determination of the country to be represented by public servants in whose hands the public interests are safe.

MAKE SOME PROGRESS

Democrats Are Shaping Up Work for Coming Session.

Washington, March 7.—The Democratic members of the House Committee on Ways and Means made some progress to-day in their work of considering tariff procedure and considering coming chairmanships, but after two sessions they had no announcement to make as to concrete results Much of the time was spent going over the relative merits and fitness of the various men who expect to become heads of the committees.

There were various reports in circulation about what the committee had done so far, including a vote of seven for Fitzgerald, of New York, and six for Burleson, of Texas, with one member wobbling, for the chairmanship of the powerful Appropriations Committee, but members of the committee declared that no final vote had been taken. Mr. Fitzgerald is generally expected to land the chairmanship of the committee. There has been some talk that Mr. Burleson might be placated with the chairmanship of the Committee on Agriculture, but he stated to-day that he would not take it if offered him. The choice for the Agricultural Committee is expected to rest between Lever, of South Carolina, and Bell, of Texas.

It was stated that the committee has reached no conclusion as to the tariff procedure, and that nothing definite is to be expected until after all the Democratic members of the Ways and Means Committee return here on Monday.
